

ANNUAL INDEX 1983

A

Abrasion—see of equipment Sept.	37
Aggregate producer profiles	
—Dolcetto Quarries Inc., Nov.	28
—Flatiron Sand & Gravel Co., Nov.	31
—Luck Stone Co., Nov.	24
Aggregate Production Seminar draws 111 from coast to coast, May	48
Allied Concrete & Materials Co., May	34
Ansari, Mishab-Ul Haq, May	14
Arizona producer solves water restriction problems, May	47
Arkshola Sand & Gravel Co., Feb.	40
A special report on the Soviet cement industry, June	48A
A quick look at the Martin Marietta cement division, Aug.	48G
Automated conveyor walks to keep pace with muck pile, July	37

B

Barge-mounted plants process Rhine sand & gravel, Feb.	29
Belt filters increase wet kiln productivity, Feb.	32A
Best puts new plant onstream, Sept.	32
Best Sand Co., Sept.	52
Bill Young discusses PCA problems and opportunities, July	46
Blasting	
—Some pointers on blasting techniques/Part I, Feb.	26
—Quarry site geology determines drilling & blasting methods/Part II, June	44
—Some pointers on blasting agents/Part III, Aug.	40
Bledaev, Mark C., Proper selection is key to problem-free crusher system/Part I, Jan.	33
Blue Circle updates its experience burning refuse, April	41
Blue Circle PLC, April	41
Blue Circle PLC, The English have landed, Aug.	48A
Boldyrev, Sergei, A special report on the Soviet cement industry/Part I, June	48A
Boldyrev, Sergei, The Soviet cement industry/Part II, July	52
Borg, David G., Quarry site geology determines drilling and blasting methods, June	44
Borg, David G., Some pointers on blasting agents/Part II, Aug.	40
Borg, David G., Some pointers on blasting techniques/Part I, Feb.	26
Bronson, T.E., Bronson lays out smorgasbord of issues for cement industry, Apr.	35
Bryan Rock Products, Aug.	44
Bureau of Mines, U.S. cement production & consumption in 1982, Oct.	48C
Buyer's Guide 1983, Jan.	53
Bye, Roy F., Glory holes & underground crushers cut trucking costs, Jan.	36

C

Careful drill maintenance is key to high availability, March	32
Cement	
—A quick look at the Martin Marietta cement division, Aug.	48G
—A special report on the Soviet cement industry, Part I, June	48A
—Bill Young discusses PCA problems & opportunities, July	46
—Blue Circle updates its experience burning refuse, Apr.	41
—Bronson lays out smorgasbord of issues for cement industry, Apr.	35
—Computerized laboratory helps solve quarry problems, Apr.	103
—Dyckerhoff burns rubber tires, Apr.	38
—Cement Forecast 1984, Dec.	34
—Giant protects coal-firing system with multiple guards, Apr.	48
—Heat exchanger ups production, Oct.	48A
—International review, Apr.	55
—Kiln chain experiments by Saudi Cement Co., May	14
—Major Saudi trade shows exports are vital part of producer sales, Apr.	44
—Mitsubishi Cement introduces energy-saving clinker system, June	48C
—Norcem reports its experiences with waste fuels, Apr.	37
—Onoda Cement, World cement exports are vital part of exporting—competition is here to stay, Apr.	44
—San Juan Cement relates its experience with graphite dust byproducts, Apr.	40
—South African plant produces 1.6 million mtpy at capacity, Apr.	106
—Stats verify '82 was a 'bummer', Oct.	48C
—The English have landed, Aug.	48A
—The Soviet cement industry—part II of our special report, July	52
—What's ahead for the cement industry? Aug.	46
—Who is Cementia? Aug.	48E
Cement, International Seminar	
—Eighteenth International Cement Seminar, Feb.	37
Charles Luck of Luck Stone, Nov.	24
Cohen, Sidney M., Future lime plant design, Oct.	44

Computer technology

—Computerized laboratory help solve Saudi Arabian quarry problems, Apr.	103
—Computer runs Genstar plant, Sept.	41
—Lift-tower or lemon? Choose wisely in selecting S&G computer use studied, Sept.	38
—Tips on buying micro-computers, Oct.	41
Computer runs Genstar plant, Sept.	41
Computerized laboratory helps solve quarry problem, Apr.	103
Con-App Recycling Corp., Midtown recycling plant focuses on rubble, Feb.	34
Conrock Co.'s Valley Reclamation Co., Sept.	62
Construction Forecast 1984, Dec.	14
Continental Lime's Indian Creek plant, Oct.	34
Corcoran, Gary B., Take a tour of Ideal's massive Cris Dobbins plant, Feb.	32C
Correcting concrete defects, May	52-A
Correct paints reduce upkeep, extend equipment life, Mar	26
Cottages and castles: pits are valued housing sites, Feb.	31
Crawler-mounted portable plant saves hours at moving time, July	43
Cronenberg Steinindustrie Triches K.G. (W. Germany), July	45
Crushed stone	
—Forecast 1984, Dec.	27
—Glory holes & underground crushers cut trucking costs, Jan.	36
—Impact crushers come in wide range of sizes & types/Part II, March	41
—Is underground mining in your future expansion plans? June	29
—Manufactured sand production can be independent part of plant, May	40
—NCSA convention, New Orleans, LA, Jan. 18-21	108
—NLI considering major revision in membership dues, Apr.	110
—Proper selection is key to problem-free crusher system/Part II, Jan.	33
—Pushing plant: profits, plight, Nov.	38
—Quarry drill maintenance, March	42
—Quarry site geology determines drilling and blasting methods, June	44
—Site geology key to quarry plan, Aug.	33
—Some pointers in blasting techniques/Part I, Feb.	26
—Some pointers on blasting agents/Part III, Aug.	40
—Tips on buying micro-computers, Oct.	41
Crushed stone, plants	
—Blue Circle Cement's Swanscombe quarry, Aug.	39
—Bryan Rock Products, Aug.	44
—Conrock's subsidiary Valley Reclamation Co., Sept.	62
—Cronenberg Steinindustrie Triches KG, July	45
—Dalton Rock Products Co., Sept.	44
—Dalton Rock Products Co., Nov.	38
—Dolcetto Quarries Inc., Nov.	28
—Dravo Lime Co.'s Cabin Creek Mine, June	31
—Genstar Stone Products, Sept.	41
—Georgia Marble Co., Mar	26
—Gifford-Hill's Riverside Cement's underground quarry, June	35
—Granite Rock, July	37
—Luck Stone Corp., Nov.	24
—Martin Marietta Aggregates, June	35
—Springfield Quarry/Loc. Products, Aug.	38
—Vulcan Materials' Graham II plant, Sept.	47
Crushing, Principles of	
—Proper selection is key to problem-free crusher system, Part I, Jan.	33
—Impact crushers come in wide range of sizes & types/Part II, Mar	41
—Manufactured sand production can be independent part of plant/Part III, May	40
Crushing tough, red limestone, Aug.	44
D	
Dalton Rock Products Co., Sept.	44
Dalton Rock Products Co., Nov.	38
Data Processing equipment utilized in the S&G and Ready Mixed Industries, Sept.	60
DeDiemar, Ronald B., Proper selection is key to problem-free crusher system/Part I, Jan.	33
Dewatering wheel cuts length of pipeline in Colorado, Jan.	30
Dolcetto Quarries, Inc., Nov.	28
Double output by pushing plant, Sept.	44
Dozer's ripping saves money, Aug.	36
Dravo Lime Co.'s Cabin Creek underground mine, June	31
Dredging, Barge-mounted plants process Rhine sand & gravel, Feb.	29
Dyckerhoff explains its experience burning rubber tires, Apr.	38
Dyckerhoff Zementwerke, Apr.	38
E	
Ed McDowell of Flatiron, Nov.	31
Editorial comment	
—A fable of sorts, Feb.	11
—Are our forces in disarray? June	11
—Building confidence, Aug.	15
—Four stars to Michigan State, Jan.	15
—Help wanted, Apr.	11

—Join Us in Japan, Dec.	13
—NCSA/NLI—What's holding up the parade? May	21
—Nurturing the public image, Oct.	17
—Random notes, July	21
—Shame on you, Mr. Mieschur, Nov.	13
—Some thoughts on Con/Agg Show, Sept.	21
—The Pac, Mar	11
Electric-powered excavator virtually maintenance free, Feb.	40

F

Farmer, Howard N., Material being excavated determines hardfacing pattern, Mar.	34
Farming, wildlife are natural for mined aggregate sites, July	47
Flatiron Sand & Gravel Co., Nov.	31
Forecast 1984, Dec.	14
Former quarries and pits provide play for all ages, June	50
Fraser, Donald G., Proper refractories will keep destructive forces under control, Mar.	26
Fuel tax increase spreads ray of hope at NCSA convention, Apr.	108
Future lime plant design, Oct.	44

G

Genstar Stone Products, Sept.	41
Geologists visit Ontario Mines, Sept.	56
Georgia Marble Co., Mar.	26
Giant Portland Cement & Masonry, Apr.	48
Giant protects coal-firing system with multiple guards, Apr.	48
Gifford-Hill's Harleysville, S.C. plant, Oct.	48A
Gifford-Hill's Riverside Cement's underground quarry, June	35
Glory holes & underground crushers cut trucking costs, Jan.	36
Granite Rock's Logan quarry, July	37
Gutierrez, Kenneth A., Report on lime in South Africa, Oct.	39
Gypsum Forecast 1984, Dec.	42

H

Hatano, H., Mitsubishi Cement introduces energy-saving clinker system, June	48C
Heat exchanger ups production, Oct.	48A
Hirota, Y., Mitsubishi Cement introduces energy-saving clinker system, June	48C
Holt, Peter, So. African plant produces 1.6 million mtpy at capacity, Apr.	106
Huhta, Richard S.	
—A quick look at the Martin Marietta cement division, Aug.	48G
—Bill Young discusses PCA problems & opportunities, July	46
—Charles Luck of Luck Stone, Nov.	24
—Editorial comment: A fable of sorts, Feb.	11
—Editorial comment: Are our forces in disarray? June	11
—Editorial comment: Building confidence, Aug.	15
—Editorial comment: Four stars to Michigan State, Jan.	15
—Editorial comment: Help wanted, Apr.	11
—Editorial comment: Join Us in Japan, Dec.	13
—Editorial comment: NCSA/NLI—What's holding up the parade? May	21
—Editorial comment: Nurturing the public image, Oct.	17
—Editorial comment: Random notes, July	21
—Editorial comment: Shame on you, Mr. Mieschur, Nov.	13
—Editorial comment: Some thoughts on Con/Agg Show, Sept.	21
—Editorial comment: The Pac, Mar.	11
—International cement review, Apr.	55
—NLI considering major revision in membership dues, Apr.	110
—The English have landed, Aug.	48A
—Tips on buying micro-computers, Oct.	41
—What's ahead for the cement industry? Aug.	46
—Who is Cementia? Aug.	48E
Hunt, Stephen F., New lime plant goes onstream, Oct.	34

I

Ideal Basic's Cris Dobbins, Theodore, Ala., plant, Feb.	32C
IEEE meeting, What's ahead for the cement industry? Aug.	46
Impact crushers come in wide range of sizes and types, Mar.	41
Impact crusher replaces three compression crushers in plant, May	44
Indicators may signal recovery, NSGA told, Mar.	47
Industrial Minerals, Forum on Geology of, Sept.	56
Industrial Sand, Best Sand Co., Sept.	52
Ironman, Ralph	
—Barge-mounted plants process Rhine sand & gravel, Feb.	29
—Mobile crusher follows shovel, Aug.	39
—Third kiln adds to lime output, Nov.	43
—Ira Cement Factory, Div. of Ube Industries, Glory holes & underground crushers cut trucking costs, Jan.	36

Is underground mining in your future expansion plans? June 29
Ito, Masahide, World Cement exporting: competition is here to stay, Apr. 44

K

Giant protects coal-firing system with multiple guards, Apr. 48
Keep crushing despite the cold (in Scandinavia), Feb. 44-A
Kemmerer, Jeffrey P., Computerized laboratory helps solve quarry problem, Apr. 103
Kuennen, Tom
—Aggregate Production Seminar draws 111 from coast to coast, May 48
—Arizona producer solves water restriction problems, May 34
—Cottages & castles: pits are valued housing sites, Feb. 31
—Crushing tough, red limestone, Aug. 44
—Dolciotti-James Carnathan, Nov. 28
—Double output by pushing plant, Sept. 44
—Farming, wildlife are naturals for mined aggregate sites, July 47
—Former quarries and pits provide play for all ages, June 50
—Geologists visit Ontario Mines, Sept. 56
—Indicators may signal recovery, NSGA told, Mar. 47
—Lifesaver or lemon? Choose wisely in selecting computer, Jan. 38
—Mine aggregate, make methane, Sept. 62
—Mining, marketing frac sand, a cyclical, special product, May 37
—Pushing plant: profits, plight, Nov. 38
—Reactivated limestone mine serves Gifford-Hill plant, June 35
—Reclamation reading list, Nov. 41
—Reinvest quarterly profits, Bronson tells cement makers, Feb. 37
—Rocks to riches: reclaimed sites fine for business, Mar. 38
—S&G computer use studied, Sept. 60
Kuhnheim, Garth, Stone producer evaluates underground mine equipment, June 31

L

Land reclamation
—Cottages & castles: pits valued housing sites/Part 7, Feb. 31
—Farming, wildlife are naturals for mined aggregate sites/Part 10, July 47
—Former quarries and pits provide play for all ages/Part 9, June 50
—Mine aggregate, make methane/Part 11, Sept. 62
—Reclamation reading list (bibliography)/Part 12, Nov. 41
—Rocks to riches: reclaimed sites fine for business/Part 8, Mar. 38
Libyan Cement Co.'s Benghazi & Souk El Kamin lime plants, Nov. 43
Lifesaver or lemon? Choose wisely in selecting computer/Jan. 38
Lightweight Aggregate Forecast 1984, Dec. 42
Lime
—Forecast 1984, Dec. 42
—Future lime plant design, Oct. 44
—New lime plant goes onstream, Oct. 34
—Report on lime in South Africa, Oct. 39
—Third kiln adds to lime output, Nov. 43
Lime plants
—Continental Lime's Indian Creek plant, Oct. 34
—Libyan Cement's Benghazi & Souk El Kamin lime plant, Nov. 43
Luck Stone Corp., Nov. 24

M

Maberry, John H., Heat exchanger ups production, Oct. 48A
Maintenance
—Careful drill maintenance is key to high availability, Mar. 32
—Correct paints reduce upkeep, extend equipment life, Mar. 26
—Material being excavated determines hardfacing pattern, Mar. 34
—Products and literature useful to maintenance program, Mar. 45
—Proper refractories will keep destructive forces under control, Mar. 28
Major Saudi trader says exports are vital part of producer sales, Apr. 44
Manufactured sand production can be independent part of plant, May 40
Martin Marietta Aggregates (Indianapolis, IN) June 35
Martin Marietta cement division, A quick look at the, Aug. 48G
Material being excavated determines hardfacing pattern, Mar. 34
Matthee, Dr. Heinrich, Dyckerhoff explains its experience burning rubber tires, Apr. 38
F. F. Mengel Co., Custer WI July 43
Midtown recycling plant focuses on rubble, Feb. 34
Mine aggregate, make methane, Sept. 62
Mining, marketing frac sand: a cyclical product, May 37
Mitsubishi Cement introduces energy-saving clinker system, June 48C
Mobile crusher follows shovel, Aug. 39
Mobile Pre-Mix Concrete plant, Decastering wheel extends length of pipeline in Colorado plant, Jan. 30

Moore McCormack Cement, Apr. 35
Motz, J.C., Manufactured sand production can be independent part of plant, May 40
N
NCSA
—Sixty-Sixth annual convention, Apr. 108
—Tips on buying Micro-computers, Oct. 41
—NLI merger: What's holding up the parade? May 21
NSGA
—Sand & Gravel computer use studied, Sept. 60
—Sand & Gravel Operator's Forum, Minneapolis, MN, Nov. 36
—67th annual convention, Mar. 47
—sponsors first sand & gravel landscape competition, July 52
NLA, Report on lime in South Africa, Oct. 39
NLI, considering major revision in membership dues, Apr. 108
New lime plant goes onstream, Oct. 34
Norcem Cement, Norway, Apr. 37
Norcem reports its experiences with waste fuel, Apr. 37

O

Onoda Cement, Japan, Apr. 42
Operators hear about rebuilding, Nov. 36
Paint, Georgia Marble Co.'s maintenance painting program, Mar. 26
Precast plant afloat in Italy, Aug. 48A
Pretoria Portland Cement, Transvaal, So. Africa, Apr. 106
Products and literature to match underground mining needs, June 42
Proper refractories will keep destructive forces under control, Mar. 28
Proper selection is key to trouble-free crusher system/Part 1, Jan. 33
Proximity to market tips scale to underground mines, June 35
Pushing plant: profits, plight, Nov. 38

Q

Quarry site geology determines drilling and blasting methods, June 44

R

Reactivated limestone mine serves Gifford-Hill plant, June 35
Recycling concrete rubble, Midtown recycling plant focuses on rubble, Feb. 34
Reinvest quarterly profits, Bronson tells cement makers, Feb. 37
Report on lime in South Africa, Oct. 39
Rich, Robina, Major Saudi trader says exports are vital part of producer sales, Apr. 44
Robertson, Joseph L.
—Abrasion—foe of equipment, Oct. 37
—Automated conveyor walks to keep pace with muck pile, July 37
—Best puts new plant onstream, Sept. 52
—Computer runs Genstar plant, Sept. 41
—Dewatering wheel cuts length of pipeline in Colorado pit, Jan. 30
—Doser's ripping saves money, Aug. 31
—Ed McDowell of Flatiron, Nov. 31
—Electric-powered excavator virtually maintenance free, Feb. 40
—Fuel tax increase ray of hope at NCSA convention, Apr. 108
—Glory holes & underground crushers cut trucking costs, Jan. 36
—Impact crushers come in wide range of sizes and types, Mar. 41
—Impact crusher replaces three compression crushers in plant, May 44
—Is underground mining in your future expansion?, June 29
—Midtown recycling plant focuses on rubble, Feb. 34
—Operators hear about rebuilding, Nov. 36
—Proximity to market tips scales to underground mine, June 35
—Site geology key to quarry plan, Aug. 33
—Switch from trucks to belt conveyor cuts operating cost, July 40
—Vulcan mines "tough" stone, Sept. 47
Rock & Concrete World
—Correcting concrete defects, May 52A
—Keep crushing despite the cold (in Scandinavia), Feb. 44A
—Precast plant afloat in Italy, Aug. 48A
—Removing concrete stains, Nov. 48A
Rocks to riches: reclaimed sites fine for business, Mar. 38
Roman, Benjamin, San Juan relates its experiences with graphite dust byproducts, Apr. 40

S

Sand
—J.L. Shiely Frac Sand, May 37
Sand & Gravel
—Barge-mounted plants process Rhine sand & gravel, Feb. 29
—computer use studied, Sept. 60

—Crawler-mounted portable plant saves hours at moving time, July 43
—Dewatering wheel cuts length of pipeline in Colorado pit, Jan. 30
—Electric-powered excavator virtually maintenance free, Feb. 40
—Forecast 1984, Dec. 27
—NSGA's 67th annual convention, Mar. 47
—NSGA sponsors first sand and gravel landscape competition, July 52
—Operators hear about rebuilding, Nov. 36
—S&G computer use studied, Sept. 60
—Operator's Forum, Nov. 36
Sand & Gravel plants
—Allied Concrete & Materials Co., May 34
—Best Sand Co., Sept. 52
—F. F. Mengel Co., July 43
—Flatiron Sand & Gravel Co., Nov. 31
—Scapouse Sand & Gravel Co., May 44
—Tanner Companies' Tucson, Ariz. plant, July 40
San Juan Cement Co., Apr. 40
San Juan relates its experiences with graphite dust byproducts, Apr. 40
Sasaki, A., Mitsubishi Cement introduces energy-saving clinker system, June 48C
Saudi Cement Co., supplies further data on kiln chain experiments, May 14
Scapouse Sand & Gravel Co., May 44
Sheehy, Leo, J., Careful drill maintenance is key to high availability, Mar. 32
J. L. Shiely Co., May 37
Site geology key to quarry plan (also Nov. 83 issue, p. 18) Aug. 33
Some pointers on blasting agents, Part III, Aug. 40
Some pointers on blasting techniques/Part I, Feb. 25
South Africa, report on lime in, Oct. 39
South African plant produces 1.6 million mtpy at capacity, Apr. 106
Southern Province Cement Co., Saudi Arabia, Apr. 103
Southwestern Portland Cement's Amarillo Tex., plant, Feb. 32A
Springfield Quarry, Rock Products Co., Aug. 36
Stats verify '82 was a 'Bummer', Oct. 48C
Stone producer evaluates underground mine equipment, June 31
Swanscombe quarry, Blue Circle Cement, Kent, U.K., Aug. 39
Switch from trucks to belt conveyor cuts operating costs, July 40
Synchronized feeder system supplies stone to crusher, July 45

T

Take a tour of Ideal's massive Cris Dubbins plant, Feb. 32C
The English have landed, Aug. 48A
The Soviet cement industry, Part II of our special report, July 52
Thin kiln adds to lime output, Nov. 43
Thorn, E.B., Jr., Belt filters increase waste kiln productivity, Feb. 32A
Tips on buying micro-computers, Oct. 41
Trovaag, Knut, Norcem reports experiences with waste fuel, Apr. 37
Truck efficiency, are you doing all you can to improve?, Feb. 24
Tucson, Arizona plant of Tanner Industries, July 40

U

Ube Industries' Isa Cement factory, Glory holes & underground crushers cut trucking costs, Jan. 36
Underground mining
—Is underground mining in your future expansion plans? June 29
—Products and literature to match underground mining needs, June 42
—Proximity to market tips scales to underground mining, June 35
—Reactivated limestone mine serves Gifford-Hill plant, June 37
—Stone producer evaluates underground mine equipment, June 31

V

Vulcan Materials' Graham II plant, Sept. 47
Vulcan mines "tough" stone, Sept. 47

W

Waste fuels
—Blue Circle burns municipal refuse, Apr. 41
—Dyckerhoff burns rubber tires, Apr. 38
—Norcem's experience with PC B's as waste fuels, Apr. 37
—San Juan uses graphite dust byproducts, Apr. 40
Watson, Dr. David, Blue Circle updates its experience burning refuse, Apr. 41
Weber, Katherine
—NSGA sponsors first sand and gravel landscape competition, July 52
—Synchronized feeder system supplies stone to crusher, July 45
What's ahead for the cement industry?, Aug. 46
Who is Cementia?, Aug. 48E
World cement exporting: competition is here to stay, Apr. 44

Y

Young, Bill, . . . discusses PCA problems & opportunities, July 46
